

LIST OF INVESTMENT PROJECTS IN LITHUANIA OPEN FOR PRIVATE CAPITAL PARTNERS

No.	Project Title	Sector	Project Value	Short Project Description
1.	New Nuclear Power Plant	Energy	3-5 billion EUR	Construction of a new nuclear power plant and the related infrastructure
2.	Liquid Natural Gas Terminal / Underground Natural Gas Storage	Gas	620-670 million EUR	Construction of liquid natural gas terminal and underground natural gas storage
3.	Rail Baltica & Kaunas Public Logistic Centre	Transport	275 million EUR	Construction of European standard railway route Lithuanian/Polish border-Kaunas and Kaunas Public Logistic Centre
4.	Vilnius Public Logistic Centre	Transport	35 million EUR	Development of logistic centre's public logistic infrastructure and intermodal terminal
5.	Klaipeda Public Logistic Centre	Multimodal Transport	30 million EUR	Development of logistic centre's public logistic infrastructure and intermodal terminal
6.	Outer Deep-Water Seaport	Transport	1 billion EUR	Construction of outer deep-water seaport
7.	Via Baltica road section	Road Transport	145 million EUR	Reconstruction of Via Baltica road section Mauruciai-Puskelniai
8.	National Stadium and Sports Centre	Sports	130 million EUR	Construction of modern national stadium for athletics and football
9.	Babilonas: City Within City	Commercial	83 million EUR	Construction of industrial, commercial, residential premises and public zones complex
10.	Airport Business Park	Commercial	18,3 million EUR	Construction of office space, commercial buildings, industrial and/or warehouse premises complex
11.	Vilija Business Park	Commercial	15 million EUR	Construction of industrial, retail and/or office premises complex
12.	Waterfront development – office and residential premises	Commercial	15 million EUR	Construction of office and residential premises complex
13.	Logistic and Production Centre	Commercial	14 million EUR	Development of logistic and production centre

1. New Nuclear Power Plant

Project Objectives:

- Security of energy supply;
- Diversification of fuel supply mix;
- Contributes to the green agenda;
- Economic stimulus – construction of new NPP will be the biggest greenfield investment in Lithuania.

Project Location:

Visaginas

Project Description:

- New NPP up to 3 400 MW capacity;
- New NPP technology is to be not older than III/III+ generation, thus modern, safe and environmentally-friendly technology is to be used at the plant;
- Preparatory works of the Project is undertaken by company „Visagino atominė elektrinė“;
- Information about Environmental Impact Assessment, which is completed, and other preparatory works might be found at company's website www.vae.lt.

Project Terms:

- It is planned to start the first reactor in 2018-2020;
- Operation is expected for no less than 60 years.

Project Cost:

EUR 3-5 billion

Contact Information:

Mr. Sarunas Vasiliauskas
Head of the new Nuclear Power Plant Project in Lithuania
Director General of “Visagino atominė elektrinė” UAB
Phone (+370 5) 278 20 60
Fax (+370 5) 278 21 15
E-mail sarunas.vasiliauskas@vae.lt

2. Liquid Natural Gas Terminal / Underground Natural Gas Storage

Project Objectives:

Liquid Natural Gas Terminal	<ul style="list-style-type: none"> ▪ Reducing Lithuania's dependence on the single natural gas supplier; ▪ Ensuring diversification of natural gas supply sources; ▪ Ensuring natural gas supply in Lithuania.
Underground Natural Gas Storage	<ul style="list-style-type: none"> ▪ Creating conditions for natural gas reserve storage in Lithuania

Project Location:

Liquid Natural Gas Terminal	Klaipeda
Underground Natural Gas Storage	Viesvenai, Telsiai county

Project Description:

Liquid Natural Gas Terminal	<ul style="list-style-type: none"> ▪ Building of the liquefied natural gas terminal; ▪ A study by Science Applications International Corporation should disclose the alternatives, of gas supply by the sea and return on investment, as well as terminal's safety and economics; ▪ It is planned to complete the study in qtr III, 2010.
Underground Natural Gas Storage	<ul style="list-style-type: none"> ▪ Building the underground natural gas storage; ▪ Seismological research of geological structure's suitability for the underground natural gas storage arrangement is being undertaken; ▪ As the research is completed, the design works start and the project value to be estimated; ▪ It is planned to complete the research in 1st quarter 2011.

Project Terms:

Liquid Natural Gas Terminal	Baseline project start date- 2012-2018 m.
Underground Natural Gas Storage	It is planned to implement the project until 2015

Project Cost:

Liquid Natural Gas Terminal	EUR 270- 320 million
Underground Natural Gas Storage	EUR 350 million

Contact Information:

3. Rail Baltica & Kaunas Public Logistic Centre

Project Objectives:	
Rail Baltica	<ul style="list-style-type: none"> Developing the high-quality connections for passenger and freight transport between the Nordic countries, Baltic States and Western Europe through the trans-European transport corridor (TEN-T); Alleviating congestion on the European road network to ensure effective connection and cargo transportation by railways.
Kaunas Public Logistic Centre	<ul style="list-style-type: none"> Creating and developing the complex transport infrastructure in Kaunas region and city for cargo flows in the East-West and North-South transport corridors; Reducing cargo transit traffic in Kaunas city; Integrating Kaunas public logistics centre and Rail Baltica railway into the unified transport system; Ensuring the interaction between different transport modes (rail - 1435mm and 1520 mm gauges, road and air transport).
Project Location:	
Rail Baltica	Poland/Lithuania border – Kaunas (1 st stage), Kaunas – Lithuania/Latvia board (2 nd stage)
Kaunas Public Logistic Centre	Karmelava and/or Mauručiai
Project Description:	
Rail Baltica	<ul style="list-style-type: none"> One of the priority TEN-T network projects (Warsaw-Kaunas-Riga-Tallinn-Helsinki); Compliance of European and flange rail standards, provision of interoperability; Building of the European-standard railway line from Poland/Lithuania border to Kaunas, modernization of the existing railway line from Kaunas to Lithuania/Latvia border; Compatibility between European and Russian standard gauge rail systems, assurance of interoperability; Financial support from the TEN-T Fund; Involvement of private sector is expected.
Kaunas Public Logistic Centre	<ul style="list-style-type: none"> Area approximately 50 - 180 hectares; Terminals, customs and other controlling institutions will be established, storage, distribution and logistic services will be provided; Public sector will provide the minimum public logistics centre's requirements – to establish at least one terminal and develop the necessary communications, approach roads, railways; Private sector opportunities – creating the internal infrastructure (terminals, repair shops, gas stations etc.) and providing other services. Since the private capital is attracted to the project implementation and the logistic infrastructure (terminals, workshops) is created by the companies, the territory will shape as a freight village.
Project Terms:	
Rail Baltica	till 2014 (Lithuania/Poland border - Kaunas)
Kaunas Public Logistic Centre	<ul style="list-style-type: none"> Start of construction: 2nd quarter of 2012 Construction timeline: about 33 months
Project Cost:	
Rail Baltica	EUR 246 million
Kaunas Public Logistic Centre	EUR 23 million
Contact Information:	
	<p>Mr. Algirdas Tuganauskas Director Transport Policy Department Ministry of Transport Phone (+370 5) 239 39 88 Fax (+370 5) 212 43 35 E-mail a.tuganauskas@transp.lt http://www.transp.lt</p>

4. Vilnius Public Logistic Centre

Project Objectives:

- Ensuring the interaction between different transport modes (railways and road transport);
- Expanding the range of the offered logistics services in Vilnius region;
- Improving Lithuania's logistics competitive position by cargo transportations in an East-West direction (multimodal IX B TEN-T corridor);
- Integrating Lithuania into the system of the EU logistic centres;
- Furthering the optimization of European transport system, intermodal transport promotion and improvement of competitiveness;
- Reducing the cargo transit traffic in Vilnius city.

Project Location:

Vilnius city outskirts, near the biggest railway distribution station in Lithuania

Project Description:

- Public sector will provide the minimum public logistics centre's requirements – to establish at least one intermodal terminal and develop the necessary communications, approach roads, railways;
- Private sector opportunities – creating the internal infrastructure (terminals, repair shops, gas stations etc.) and providing other services;
- The project has a status of national importance;
- Since the private capital is attracted to the project implementation and the logistics infrastructure (terminals, workshops etc.) is created by the companies, the territory will shape as a freight village;
- Financial support from the EU Funds.

Project Terms:

- Start of construction: 2nd quarter of 2012
- Construction timeline: about 33 months.

Project Cost:

EUR 35 million (for the creation of external infrastructure, excluding land acquisition costs)

Contact Information:

Mr. Algirdas Tuganauskas
Director
Transport Policy Department
Ministry of Transport
Phone (+370 5) 239 39 88
Fax (+370 5) 212 43 35

<http://www.transp.lt>

5. Klaipeda Public Logistic Centre

Project Objectives:	
	<ul style="list-style-type: none"> ▪ Ensuring the interaction between different transport modes (water, road and rail) in Klaipeda region; ▪ Reducing from cargo transit flows in Klaipeda city, promoting logistics development in Klaipeda Public Logistics Centre, which could operate as a dry port; ▪ Improving Lithuania's competitiveness in cargo transportations in an East-West direction (multimodal IX B TEN-T corridor); ▪ Integrating Lithuania into the system of the EU logistics centres; ▪ Using the possibility to join the European logistics information networks; ▪ Furthering the optimization of European transport system, promotion of intermodal transport and competitiveness.
Project Location:	
	Klaipeda/Klaipeda district (the exact place will be specified after the study is completed)
Project Description:	
	<ul style="list-style-type: none"> ▪ Public sector will provide the minimum public logistics centre's requirements – building at least one intermodal terminal and developing the necessary communications, approach roads, railways; ▪ Private sector opportunities – creating the internal infrastructure (terminals, repair shops, gas stations etc.) and providing other services; ▪ The logistics centre will occupy the territory of 50-200 hectares; ▪ The has a status of national importance; • Financial support from the EU Funds.
Project Terms:	
	<ul style="list-style-type: none"> ▪ Start of construction: 4th quarter of 2010; ▪ Construction timeline: about 27 months.
Project Cost:	
	Approx. EUR 30 million (for the creation of external infrastructure, excluding land acquisition costs)
Contact Information:	
	Mr. Algirdas Tugauskas Director Transport Policy Department Ministry of Transport Phone (+370 5) 239 39 88 Fax (+370 5) 212 43 35 E-mail a.tugauskas@transp.lt http://www.transp.lt

6. Outer Deep-Water Seaport

Project Objectives:

- Ensuring the transport flows in an an East-West direction, implementing East-West Transport Corridor project;
- Extending Lithuania’s transit and maritime potential, developing the outer deep-water seaport and constructing new terminals;
- Reducing the cargo traffic pollution in Klaipeda by directing its flows to the new outer deep-water seaport;
- Creating an opportunity of serving BALTMAX-type vessels, as the current Klaipeda state seaport depth and the landing-stage canal width are insufficient for this type of vessels;
- Increasing Lithuanian transport sector marketability;
- Enabling the new seaport to become one of the highest-capacity Baltic sea region seaports.

Project Location:

Klaipeda and/or Butinge

Project Description:

- It is planned to create an opportunity to build the liquefied natural gas terminal in the outer deep-water seaport;
- Involvement of private sector is expected;
- The project has a status of national importance;
- Financial support from the EU Funds.

Project Terms:

- Start of construction: 2012;
- Construction timeline: 2018.

Project Cost:

Approx. EUR 1 billion

Contact Information:

Mr. Algirdas Tuganauskas
 Director
 Transport Policy Department

<http://www.transp.lt>

7. Via Baltica road section

Project Objectives:

- Building four-lane motorway;
- Modernizing the transport infrastructure;
- Increasing the transit volume by using the opportunities of transport corridors crossing Lithuania.

Project Location:

VIA BALTICA (I TEN-T corridor) road section Mauruciai-Puskelniai

Project Description:

- Building four-lane motorway on A5 section from 22 km to 56,5 km (total section length -34,50 km);
- The project has a status of national importance;
- Financial support from the EU Funds;
- PPP is expected.

Project Terms:

- Start of construction: 3rd quarter of 2011;
- Construction timeline: approx. 42 months.

Project Cost:

EUR 145 million

Contact Information:

Mr. Algirdas Tugauskas
Director
Transport Policy Department
Ministry of Transport
Phone (+370 5) 239 39 88
Fax (+370 5) 212 43 35
E-mail a.tugauskas@transp.lt
<http://www.transp.lt>

8. National Stadium and Sports Centre

Project Objectives:

- Providing a possibility to host international sports events (football and athletics), song and dance festivals, world Lithuanians sports games, international conferences and exhibitions;
- Ensuring safe conditions for sports and entertainment events;
- Increasing the international visitors flows to Vilnius city.

Project Location:

Vilnius

Project Description:

- Construction of the national stadium and sports centre;
- Building the access roads and infrastructure;
- Gross area of the stadium – 22,020 sq m., commercial sports centre 24,480 - sq m.;
- Seating capacity – 23,800 for sports events and 37,000 for entertainment;
- The project has a status of national project;
- Additional support possibilities from the State and EU funds;
- Involvement of private sector and/or PPP is expected.

Project Terms:

2007-2011

Project Cost:

Approx. EUR 130 million (EUR 30 million have already been invested)

Contact Information:

9. Babilonas: City Within City

Project Objectives:	
	<ul style="list-style-type: none"> ▪ Establishing of a new district in Panevezys city consisting of industrial, commercial, residential as well as public zones conveniently located next to each other; ▪ Creating a modern, world-class infrastructure in such district; ▪ Providing of a both convenient access to the city center (there is one straight street) and to the major intersection where roads to Riga/Tallinn/Helsinki, Vilnius, Kaunas/Warsaw joins together (in 2 km); ▪ Exploiting Panevezys' position as a midpoint between Vilnius and Riga and also at the midpoint between Warsaw and Tallinn.
Project Location:	
	Panevezys (western part)
Project Description:	
	<ul style="list-style-type: none"> ▪ Empty lots with infrastructure are available for buying; project preparation and building construction administrating are suggested. Later the building can be leased or sold in an appropriate period; ▪ Also there are several existing large buildings rented out to several tenants each. It is possible to rent space in such buildings: shopping centre, technical service centre, etc.; ▪ Total size of development: 80 ha (largest such development in the Baltic States); ▪ Project includes 3 general shopping and entertainment centres (2 completed, 1 projected), 5 specialised shopping, service centers and shops (all completed), gas station (projected), 3 residential districts (1 under construction, 2 projected); ▪ There are 6 lots available for further construction of warehouses, industrial or commercial buildings. The lots may be partitioned according to customer's needs; ▪ A "Babilonas" newspaper is published since year 2005. Based on circulation it is the largest regional newspaper in Panevezys region; ▪ Next to densely populated western district of Panevezys. 2 km to major intersection where Via Baltica highway (and Vilnius-Riga road) meets Panevezys-Siauliai-Klaipėda throughfare.
Project Terms:	
	<ul style="list-style-type: none"> ▪ Start of development: 2004; ▪ As of 2010 November, a first half of the project is completed.
Project Cost:	
	<ul style="list-style-type: none"> ▪ Total cost: EUR 83 million. ▪ EUR 45 million are already invested and EUR 37 million remains to completion.
Contact Information:	
	<p>Mr. Tadas Vasiliauskas Director of construction Ogmios Real Estate UAB Phone (+370 655) 47493 E-mail: tadas.vasiliauskas@babilonas.biz Website: http://www.babilonas.net</p>

10. Airport Business Park

Project Objectives:	
	<ul style="list-style-type: none"> ▪ Creating of the office space, commercial buildings, industry and/or warehouses complex near the Vilnius International airport (only 300 meters from the main entrance); ▪ Providing the opportunity to have offices, industry, shops and/or warehouses in a single area thereby cutting down the costs of logistics and administration.
Project Location:	
	Vilnius (Kirtimai Industrial district, next to Vilnius International Airport)
Project Description:	
	<ul style="list-style-type: none"> ▪ Empty lots with infrastructure are available for buying; project preparation and building construction administrating are suggested. Later the building can be leased or sold in an appropriate period; ▪ Convenient place: 300 m to the airport entrance, 200 m to the airport train stop, 50 m to bus stop. Distance to the city center - 3 km. Vaidotai cargo train station is in 7 km, on the same side of the city; ▪ Two buildings are completed (rented to DHL and AVON), it is possible to build at least one more industrial building/warehouse and three commercial buildings; ▪ Total size: 6 ha (buildings size – 24 000 m²). 3 ha and 12 000 m² developed as of now.
Project Terms:	
	<ul style="list-style-type: none"> ▪ Start of development: 2006 ▪ As of 2010 November, a first half of the project is completed.
Project Cost:	
	<ul style="list-style-type: none"> ▪ Approx. EUR 18 million ▪ About EUR 14 million already invested, EUR 4 million remains to completion.
Contact Information:	
	<p>Mr. Laimis Marcinkevicius CEO Airport Business Park Phone: +370 699 09361 E-mail: laimis.marcinkevicius@ogmios.lt Website: http://www.abp.lt</p>

11. Vilija Business Park

Project Objectives:

- Creating of an industrial, retail and/or office premises complex;
- Providing an opportunity to have these buildings at an ecological place, surrounded by forests, and yet still near modern infrastructure (next to Paneriai railway station, 700 m to major road where public transport is available);
- Construction of buildings purpose of which is easily adjustable according to market needs.

Project Location:

Vilnius (next to Paneriai railway station and the road to Trakai, Hrodna, Warsaw), Vilijos str. 2

Project Description:

- Empty lots with infrastructure are available for buying; project preparation and building construction administrating are suggested. Later the building can be leased or sold in an appropriate period;
- One building is already completed (rented to Eugesta). Size: 21 000 m²;
- Other premises can be offer (total floor area - up to 15 000 m²);
- Every building is easily adjustable to customer's needs (e.g. enlarge showrooms or offices at the expense of warehouses);
- Total size of the Vilijos Business Park area: 7 ha.

Project Terms:

- Start of development: 2008;
- As of 2010 November, more than half of the project is completed.

Project Cost:

- EUR 15 million;
- EUR 10,5 million already invested, EUR 4,5 million remains to invest.

Contact Information:

Mr. Povilas Janulevicius
Director
Vilijos parkas

12. Waterfront development – office and residential premises

Project Objectives:	
	<ul style="list-style-type: none"> ▪ Development of the waterfront territory; ▪ Implementing of investment project - office and residential buildings; ▪ Leasing of the office premises; ▪ Flats for sale or rent; ▪ Acquisition of the investment project in the prime location.
Project Location:	
	Kaunas
Project Description:	
	<ul style="list-style-type: none"> ▪ Area of the land plot - 16 ha, first development stage - 3.5 ha; ▪ Waterfront location; ▪ Office building rent area - 7800 sq.m; ▪ 4 waterfront residential houses sale area - 2400 sq.m (presold); ▪ Residential building sale area - 4658 sq.m; ▪ Old town within walking distance; ▪ Good accessibility from all parts of the city; ▪ Approved master-plan: <ul style="list-style-type: none"> ✓ Purpose of the land – residential and commercial; ✓ Allowed total construction area – over 14 258 m²; ✓ Allowed maximum height of the buildings – up to 30 m; ✓ Connection points to public utility’s networks are next to the plot; ✓ Possibility to start technical design immediately. ▪ Prepared sketch project – architectural and urban solutions; ▪ Most of the technical conditions for technical design are obtained.
Project Terms:	
	<ul style="list-style-type: none"> ▪ Start of construction: 2011; ▪ Approx. construction timeline: 2013.
Project Cost:	
	EUR 15 million (ROI – 15-40%)
Contact Information:	
	Mr. Tomas Vainoras Deputy director UAB Domus firma Phone (+370 610) 18 118 E-mail vainoras@gmail.com

13. Logistic and Production Centre

Project Objectives:	
	<ul style="list-style-type: none"> ▪ Developing the logistic and production centre's project conception; ▪ Ensuring of city's industrial zone development; ▪ Modernization of plant premises and area.
Project Location:	
	Alytus (northern part of the city; industrial zone)
Project Description:	
	<ul style="list-style-type: none"> ▪ Total area of 164,926 sq.m. with infrastructure is available for buying or leasing; ▪ Total industrial building area – 51,333 sq.m.; ▪ All the necessary utilities are installed; ▪ Convenient geographic location; ▪ Well-developed infrastructure; ▪ A branch railway line is stretched to the territory; ▪ Possibility to use renewable energy (installed solar panels; power capacity ~1,5MW) ▪ Possibility to separate area to smaller according to customer's needs ▪ Total size: 6 ha (buildings size – 24 000 m²). 3 ha and 12 000 m² developed as of now.
Project Terms:	
	<ul style="list-style-type: none"> ▪ on customer's request
Project Cost:	
	<ul style="list-style-type: none"> ▪ EUR 14 million; ▪ Leasing option– subject of negotiations.
